

Metrotile Esprit Shingle

**Sleek and geometrically precise:
perfect for the modern building**

The New Esprit Shingle is the latest roof tile innovation for Metrotile Lightweight Roofing. The sleek and modern design is based around geometric precision and straight grooves, with a textured-finished tile which captures the subtle look and charm of low-profile traditional tiles and slates.

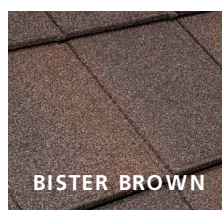

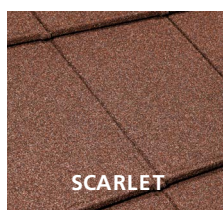

Esprit Shingle is a six-pan, stone-coated panel pressed from the highest quality, drawing grade 3 steel for maximum security against the elements. Weighing just one seventh of traditional roofing materials such as stone or clay, the Esprit Shingle is an ideal choice for conservatories and is available in 5 distinctive colours.

Extensive research and development in the design process ensures every Guardian Metrotile product is manufactured to the highest quality with exceptional durability and strength. The tile profiles and roofing accessories are engineered to interlock and overlap to resist wind lifting and keep out the harsh elements. There is no cement or mortar required which leaves a very neat and sharp appearance to the Guardian Roof.

The Guardian Roof is designed to fit onto existing reinforced window frames. Using the Guardian Metrotile Esprit Shingle and accessories means your old conservatory can be turned into a conventional sunroom in a matter of days. The roof shingles are silent and secure and carry a full **40 Year Guarantee**.

**UNIQUE
40 year
Weatherproof
Guarantee**

**LIGHTWEIGHT HIGH GRADE STEEL
WITH ALUZINC COATING
FOR INCREDIBLE STRENGTH AND
RESISTANCE**
